

YASH JAIN

Data Scientist — Python • SQL • Machine Learning

+91-8955716272 | jainyash2637@gmail.com | linkedin.com/in/yashjain37 | github.com/Yashjain2637 | Jaipur, India

PROFESSIONAL SUMMARY

Aspiring Data Scientist with a strong foundation in **C, Python, and SQL**, and hands-on experience in data analysis through real-world projects. Skilled in data cleaning, visualization, and extracting actionable insights to support data-driven decision making. Passionate about problem solving and continuously enhancing analytical and technical skills through practical implementation and continuous learning.

EXPERIENCE

Regex Software Services

Data Scientist Intern

Jaipur, India

Aug 2025 – Present

- Worked on data analysis and machine learning projects using **Python** and **SQL**.
- Cleaned and processed datasets using **Pandas** and **NumPy** to ensure accurate analysis.
- Created insightful visualizations using **Matplotlib** and **Seaborn**.
- Built and tested predictive models using **Scikit-learn** for real-world applications.
- Wrote optimized SQL queries to efficiently extract and manage data.
- Analyzed datasets to identify patterns, trends, and actionable insights.
- Applied **C** and **Python** programming skills to solve complex problems effectively.

PROJECTS

Employee Attrition Analysis: Analyzed employee data to identify key factors contributing to attrition and proposed actionable strategies to reduce turnover.

Supply Chain Analysis: Examined supply chain data to identify inefficiencies and recommended improvements for better resource utilization.

Exploratory Data Analysis (EDA): Performed comprehensive data analysis to uncover patterns, trends, and outliers for informed decision making.

EDUCATION

Brij University

Bachelor of Science (B.Sc)

Bharatpur, India

Jan 2022 – Jul 2025

TECHNICAL SKILLS

Programming Languages: C, Python

Database & Querying: SQL, Data Extraction, Database Management

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn

Machine Learning: Scikit-learn, Predictive Modeling, Data Preprocessing

Core Concepts: Data Cleaning, Exploratory Data Analysis (EDA), Problem Solving, Algorithm Optimization

ACHIEVEMENTS & ACTIVITIES

Participated in the **IIT Kharagpur Data Science Hackathon**, working on real-world datasets and building predictive models.

Strengthened analytical and problem-solving skills through hands-on data science projects and practical implementation.

CERTIFICATION

Python (Basic) Certification — HackerRank
